PROFESSIONAL SUMMARY

Motivated Full Stack Developer (SSC-II - 78.91%) from Govt. Qazi Sultan H. Sec. School, Kunri, with self-taught expertise in HTML5, CSS3, JavaScript, React.js, Tallwind CSS and responsive devign. Built 9+ live projects deployed on Vercel including weather and task management applications. Seaking a full stack development internship to apply clean coding, problem-solving, and modem web skills in a professional team environment.

TECHNICAL SKILLS

- Languages: HTML, CSS, JavaScript
- Frontend: React.js, Tallwind CSS
- Backend: Node.js, REST APIs
- Databases: MongoDB, SQL, Mongoose
- Tools: Git, GitHub, VS Code, Vercel

EDUCATION

- **X (SSC-II) - Govt, Qazi Sultan H. Sec. School, Kunri**
  Board: BISE Mirpurkhas | Science Group | Scored 78.91% with distinction in core subjects | Year: 2026
- **Full Stack Development - Self Learning via Projects & Documentation**
  Completed intensive self-paced learning: 9+ responsive websites, Git/GitHub workflow, Vercel deployment | 2025 - 2026

ACADEMIC PROJECTS - LIVE & DEPLOYED

1. Weather App - Live Weather Search UI weather-app-ms-ufyan10.vercel.app

- Built fully responsive weather app using React.js and OpenWeatherMap API - live search by city with temperature, humidity, wind speed display.
- Implemented gradient UI, media queries for mobile/desktop centering, and error handling for invalid cities.
- Tech: React.js, CSS3, API Integration | Deployed on Vercel with GitHub CI/CD workflow.

2. To Do List - Task Management App (React) to-do-list-ms-ufyan10.vercel.app

- Developed interactive To-Do List with add, delete, and up/down reorder functionality using React useState.
- Created clean minimal UI with responsive layout and task prioritization for daily workflow.
- Tech: React.js, JavaScript, CSS3 | Dernonstrates state management, logic building and clean code structure.

3. Tic Tac Toe - Interactive Game Project tic-tac-toe-plum-iota-61.vercel.app

- Developed interactive Tic Tac Toe game with win logic, draw detection, and reset functionality using JS.
- Features: Player turn indicator, winning line highlight, score tracker, responsive grid - pure logic implementation.
- Tech: JavaScript, DOM Manipulation, Game Logic | Shows problem-solving & algorithmic thinking.

HOBBIES & INTERESTS

• Cricket • Football • Chess • Coding • Building Websites & Mini Tools
